## CPCD50-70AS4 CPCD85-100AW2

5000-10000 kg. Capacity

The A Series 5–10t IC Forklifts are heavy-duty counterbalanced trucks independently developed by Noblift, featuring advanced technology, modern family-style design, a 6-cylinder fuel-efficient engine, enhanced ergonomics, reinforced mast structure, and a highly reliable cooling system. This makes them the preferred choice for demanding applications.

## A Series Internal Combustion Forklift Trucks

- The vehicle exterior follows the A Series family design, adopting a standard wheelbase, small turning radius, and flexible operation.
- Standard configuration adopts a 6-cylinder National IV engine with stronger power, lower noise, good response at low to medium speeds, and smooth start-up, extending overhaul intervals under heavy-duty conditions.
- The standard 10t truck has a self-weight of 13.7t, meeting the needs of stone, steel, timber, ports, and rental markets without additional options or modifications.
- Heavy-duty transmission for port applications, paired with a reinforced hub reduction drive axle to support intensive operations. Steering axle kingpin bearings adopt tapered roller bearings for the first time in the industry, extending steering axle life.
- Reinforced design of frame and mast structures meets heavy-duty operating requirements.
- Reinforced mast for port applications, featuring a full-width load backrest aligned with the truck frame, eight main rollers, six side rollers, and a heavy-duty fork positioner cylinder to withstand demanding heavy-duty and unbalanced loads.
- Optimized cooling duct in counterweight with widened plate-fin radiator significantly improves vehicle thermal balance, ensuring reliable engine and transmission operation.
- Standard hydraulic oil cooler and return oil filter ensure hydraulic system reliability under continuous heavy-duty operations.
- Floating seat, audio-visual alarm, and color display instrument are all standard.
- Floorboard and side panels removable without tools, engine hood opens 80°, providing convenient and fast maintenance.
